Visual Arts	Number of Instructional Days
<p><u>Unit 1 Creative Process</u> <i>This unit is designed to explore and develop a deeper understanding of the elements and principles that govern the creation of visual art and to allow students to practice their art skills in order to formulate a deeper desire to excel in the area of visual art.</i></p>	10
<p><u>Unit 2 History of the Arts and Culture</u> <i>In this unit students will study various artists in different art industries such as ceramics, painting, drawing, and fabric. They will also learn how culture has influenced architecture.</i></p>	10
<p><u>Unit 3 Performance</u> <i>This unit is designed for students to understand how to manipulate art mediums and how to present their works of art through the use of correct terminology.</i></p>	10
<p><u>Unit 4 Aesthetic Response and Critique Methods</u> <i>In a world that is culturally and historically diverse, works of art evoke emotions that communicate meaning. It is imperative that students learn to use their imaginations to tell the stories and communicate emotion through visual arts.</i></p>	10

Visual Arts	Grade: 5
<p>Unit 1: The Creative Process</p> <p>Unit Overview: Students at this age are moving out of their own preoccupation with themselves to discover others. There is a desire to be in groups. Students enjoy practicing their artistic skills and desire to excel in their artwork. Eye-hand coordination is improved, There is better command of the small muscles and fine motor skills. Drawing and composing are done with more conscious planning. Students perceive more details and desire that their drawings be more accurate with correct proportions. By grade 5 students display a working art vocabulary and a foundation for analyzing and creating. Two types of art students emerge at this time. One is analytical and tends to visualize or mirror reality. The other places emphasis on feeling and inner directions regarding art projects. Many experience social awareness and use many social themes in their drawings.</p>	
<p>New Jersey Student Learning Standards</p> <p>1.1 The Creative Process - All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. 1.1.5.D.1 - Identify elements of art and principles of design that are evident in everyday life. 1.1.5.D.2 - Compare and contrast works of art in various mediums that use the same art elements and principles of design. Standard 8 Computer Science 8.1.5.IC.2: Identify possible ways to improve the accessibility and usability of computing technologies to address the diverse needs and wants of users. Standard 9 Career Readiness, Life Literacy, and Key Skills 9.2.8.CAP.2: Develop a plan that includes information about career areas of interest.</p>	
Enduring Understandings	Essential Questions
<ul style="list-style-type: none"> ● The elements and principles of art are present in all aspects of life. Design of packaging, furniture, clothing etc. ● Underlying structures can be found via analysis and inference. ● Breaking accepted norms often give rise to new forms of artistic expression 	<ul style="list-style-type: none"> ● What is rhythm? ● What is movement? ● What is unity? ● How can an artist use or create rhythm within their artwork? ● How can an artist use or create movement within their artwork? ● How can an artist create unity within their artwork? ● How are the elements of art and principles of design evident in everyday life? ● How do underlying structures unconsciously guide the creation of art works?

<p><i>Session 1 - (Painting)</i></p>	<ul style="list-style-type: none"> Today I want to teach you that artists understand the effect that emphasis and pattern have on a work of art. They know that emphasis and pattern can give a drawing depth. <ul style="list-style-type: none"> Artists do this by <ol style="list-style-type: none"> drawing with lines to create a picture identifying the part of the picture they would like to stand out, or emphasize adding patterns along shadowed areas to emphasize their shape or form Today I want to teach you that artists use the element of color to create artwork that is appealing to viewers. <ul style="list-style-type: none"> Artists do this by <ol style="list-style-type: none"> using the color wheel to select complementary colors when creating an image or design blending colors to create different shades and tones in design understanding that color helps create value in artwork 	
<p><i>Session 2 - (Textiles)</i></p>	<ul style="list-style-type: none"> Today I want to teach you that artists can create artwork with many things, not just with paper, pencils, and paint. They also use textiles to create art. <ul style="list-style-type: none"> Artists do this by <ol style="list-style-type: none"> weaving different colors of paper together to create design using different grasses to create baskets or tapestry 	

Skills (Students will be able to...)

- identify what part of an artwork an artist was trying to emphasize
- understand what makes something a pattern in regards to art and give an example
- create a pattern with a form of creative medium
- create emphasis on an object within an artwork
- identify tools needed for drawing: pencil, crayon, craypas, markers, pastels, paper, and eraser
- model and practice appropriate methods and techniques of drawing
- draw a drawing related to a given theme and personal interest
- use senses, imagination, and memory to express ideas and feelings in works of art
- recognize color as one of the seven elements of art
- recognize the principles of art
- understand the purpose of a color wheel
- identify and learn how to use materials in creating a painting: watercolors, tempera, brush, paper, and watercolor
- experiment with color to create specific colors for painting
- model and practice appropriate methods and techniques of painting a figure, landscape or still life
- identify the tools needed for printmaking: objects from classroom or natural environment that have texture
- model and practice appropriate techniques for rubbings and printmaking
- recognize, define and identify the elements and principles of art in clay work
- recognize color and value principles when glazing
- identify the tools needed for ceramics
- model and practice appropriate methods and techniques of clay work
- create a 3 dimensional sculpture
- recognize the elements of art in fiber art
- define and identify the elements of art in fiber art
- recognize the select principles of art in fiber art
- identify tools needed for fiber art
- practice appropriate weaving/sewing techniques

Visual Arts	Grade: 5
<p>Unit 3: Performance</p>	
<p>Unit Overview:</p> <p>In this unit students will focus on art elements and explanation of their creations. Students will manipulate the basic elements of art and principles of design for personal expression that will result in a visual communication that will be relevant in a variety of settings. Students will explore solutions to creative problems. They will be exposed to a variety of traditional and non-traditional tools, applications, possibilities and limitations.</p>	
<p>New Jersey Student Learning Standards</p>	
<p>1.3.5.D.1 - Work individually and collaboratively to create two- and three-dimensional works of art that make cohesive visual statements and that employ the elements of art and principles of design.</p> <p>1.3.5.D.2 - Identify common and distinctive characteristics of artworks from diverse cultural and historical eras of visual art using age-appropriate stylistic terminology (e.g., cubist, surreal, optic, impressionistic), and experiment with various compositional approaches influenced by these styles.</p> <p>1.3.5.D.3 - Identify common and distinctive characteristics of genres of visual artworks (e.g., realism, surrealism, abstract/non-objective art, conceptual art, and others) using age-appropriate terminology, and experiment with various compositional approaches influenced by these genres.</p> <p>1.3.5.D.4 - Differentiate drawing, painting, ceramics, sculpture, printmaking, textiles, and computer imaging by the physical properties of the resulting artworks, and experiment with various art media and art mediums to create original works of art.</p>
