Visual Arts	Number of Instructional Days
<u>The Creative Process</u> <i>This unit is designed to allow students to explore a variety of art materials. Because children have a natural curiosity and creative instinct, they should be encouraged to draw, arrange, put together, take apart, build and handle.</i>	10
<u>History of Arts and Culture</u> <i>This unit is designed for the study of the artists that have changed the popular culture and left an impression on society.</i>	10
<u>Performance</u> <i>This unit is designed to make students familiar with the explanation and process of creating art.</i>	10
<u>Aesthetic Responses and Critique Methods</u> <i>In a world that is culturally and historically diverse, works of art evoke emotion that communicates meaning. It is imperative that students learn to use their imaginations to tell the stories, and communicate emotion through visual arts.</i>	10

Visual Arts	Grade: Kindergarten
Unit 1: The Creative Process Unit Overview: In this unit students will learn how to establish a relationship with the world through art. Children will approach art in a playful way. Use of imagination and pretending is essential in the creative process. Children will experiment with art through drawing, painting and modeling with clay. They will use different materials such as cloth and tissue to create collages, and images that have a connection to the world they know.	
New Jersey Student Learning Standards 1.1 The Creative Process - All students will demonstrate an understanding of the elements and principles that govern the creation of works of art in dance, music, theatre, and visual art. 1.1.2.D.1 The basic elements of art and principles of design govern art creation and composition. 1.1.2.D.2 Recognizing the elements of art and principles of design in artworks of known and emerging artists, as well as peers, is an initial step toward visual literacy. Career Ready Practices Act as a responsible and contributing community member and employee. Demonstrate creativity and innovation. Utilize critical thinking to make sense of problems and persevere in solving them Model integrity, ethical leadership and effective management. Use technology to enhance productivity, increase collaboration and communicate effectively. Work productively in teams while using cultural/global competence. Standard 8 Computer Science 8.1.2.DA.3: Identify and describe patterns in data visualizations. Standard 9 Career Readiness, Life Literacy, and Key Skills 9.1.2.CR.1: Recognize ways to volunteer in the classroom, school and community.

Visual Arts		Grade: Kindergarten
Unit 3: Performance		
Unit Overview: <i>In this unit students will focus on art elements and explanation of their creations. Students will manipulate the basic elements of art and principles of design for personal expression that will result in a visual communication that will be relevant in a variety of settings. Students will explore solutions to creative problems. They will be exposed to a variety of traditional and non traditional tools, applications, possibilities and limitations.</i>		
New Jersey Student Learning Standards		
1.3.2.D.1 - Create two- and three-dimensional works of art using the basic elements of color, line, shape, form, texture, and space, as well as a variety of art mediums and application methods. 1.3.2.D.2 - Use symbols to create personal works of art based on selected age-appropriate themes, using oral stories as a basis for pictorial representation. 1.3.2.D.3 - Employ basic verbal and visual art vocabulary to demonstrate knowledge of the materials, tools, and methodologies used to create and tell visual stories. 1.3.2.D.4 - Explore the use of a wide array of art mediums and select tools that are appropriate to the production of works of art in a variety of art media. 1.3.2.D.5 - Create works of art that are based on observations of the physical world and that illustrate how art is part of everyday life, using a variety of art mediums and art media.		
Enduring Understandings		Essential Questions
<ul style="list-style-type: none"> • The elements of art include line, color, shape, texture, and form • Themes can include outdoors, school, home, and body. • Symbols can be representative of holidays and country. • Students should use art vocabulary to be able to describe their creations. • Exploration of the outdoors, home, and self can be used in art creation. 		<ul style="list-style-type: none"> • How do you use the basic elements of design and drawing to create a piece of art? • What kind of symbols/themes can be used in art creation? • How do you create stories to explain your art? • What observations of the physical world can you use to create art?

Visual Arts	Grade: Kindergarten
Unit 4: Aesthetic Responses and Critique Methods	
Unit Overview: This unit offers distinct opportunities to interpret, appreciate, and respond to works of art and beauty in the everyday world. Active focus, intent and understanding is an important component to have a full appreciation of the arts and foundation for language development.	
New Jersey Student Learning Standards	
1.4 Aesthetic Responses & amp - Critique Methodologies All students will demonstrate and apply an understanding of arts philosophies, judgment, and analysis to works of art in dance, music, theatre, and visual art.	
1.4.2.A.1 - Identify aesthetic qualities of exemplary works of art in dance, music, theatre, and visual art, and identify characteristics of the artists who created them (e.g., gender, age, absence or presence of training, style, etc.).	
1.4.2.A.2 - Compare and contrast culturally and historically diverse works of dance, music, theatre, and visual art that evoke emotion and that communicate cultural meaning.	
1.4.2.A.3 - Use imagination to create a story based on an arts experience that communicated an emotion or feeling, and tell the story through each of the four arts disciplines (dance, music, theatre, and visual art).	

Kindergarten Scope and Sequence for Visual Arts

1.4.2.A.4 - Distinguish patterns in nature found in works of dance, music, theatre, and visual art.

1.4.2.B.1 - Observe the basic arts elements in performances and exhibitions and use them to formulate objective assessments of artworks in dance, music, theatre, and visual art.

1.4.2.B.2 - Apply the principles of positive critique in giving and receiving responses to performances.

1.4.2.B.3 - Recognize the making subject or theme in works of dance, music, theatre, and visual art.

Career Ready Practices

Act as a responsible and contributing community member and employee.

Demonstrate creativity and innovation.

Utilize critical thinking to make sense of problems and persevere in solving them

Model integrity, ethical leadership and effective management.

Use technology to enhance productivity, increase collaboration and communicate effectively.

Work productively in teams while using cultural/global competence.

Standard 8 Computer Science

8.1.2.DA.3: Identify and describe patterns in data visualizations.

Standard 9 Career Readiness, Life Literacy, and Key Skills

9.1.2.CR.1: Recognize ways to volunteer in the classroom, school and community.

Enduring Understandings	Essential Questions
<ul style="list-style-type: none"> Many feelings can be depicted through art Shape, color, lines, and texture all play a role in defining a piece of artwork Answers will vary depending on the piece of art chosen, but color and shapes play an important role in the mood of the piece you are creating. Students will critique paintings and drawings using art terminology. Time period can be expressed in art through the style the artist is using, i.e.; Pablo Picasso - shapism 	<ul style="list-style-type: none"> How can artwork influence your feelings? In what ways can arts elements become the foundation of your own composition? What colors/shapes do you see in a work of art? What is your opinion about the use of colors in a painting? In what ways can an artist improve his/her works of art? How can the form of a piece place it in a particular period? How is the element of color expressed in various art areas?
Unit Goals	Teaching Points
<i>Session 1 - (Discussing Art)</i>	<ul style="list-style-type: none"> Today I want to teach you that artists study art and talk about art so that they can find ways to make their own art better. <ul style="list-style-type: none"> Artists do this by: <ol style="list-style-type: none"> comparing and contrasting two different pictures of the same subject, made by two different artists stating their preference for one work of art over another, and naming the specific qualities that make it better for them making suggestions for how to improve a work of art Today I want to teach you that artists recognize that art elements are what help make some works of art better than others, and they consider those elements as they critique art. <ul style="list-style-type: none"> Artists do this by: <ol style="list-style-type: none"> making a chart of how different art elements are used in a well-known painting, drawing, or sculpture commenting on various art elements in works of art discussing geometric shapes that are observed in paintings and fabric designs discussing how various works of art have elicited a variety of feelings offering a different opinion of a work of art that a classmate has already critiqued Today I want to teach you that artists sometimes work together on a work of art. To do this well, they talk about the art elements that they will include. <ul style="list-style-type: none"> Artists do this by: <ol style="list-style-type: none"> discussing how differing opinions can help the artists improve their work developing a project together, such as a group mural Today I want to teach you that artists are often inspired to create by the emotions they are feeling or by something they have seen or read. They use their emotions to create something that will appeal to others who might be feeling the same way. <ul style="list-style-type: none"> Artists do this by: <ol style="list-style-type: none"> expressing ideas important to their culture by creating a costume creating pictures based on a story they have read
