Members of the Board of Education
Florham Park Public Schools
67 Ridgedale Ave.
Florham Park, NJ 07932

Dear Board Members:

The comprehensive annual financial report of the Florham Park Public Schools for the fiscal year ended June 30, 2004 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Governmental Accounting Standards Board (GASB) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Public School's MD&A can be found immediately following the "Independent Auditor's Report".

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the independent auditor's report, management's discussion and analysis (MD&A) and the basic financial statements including the district-wide financial statements presented in conformity with Governmental Accounting Standards Board Statement No.34. The basic financial statements also include individual financial statements; notes to the financial statements and required supplemental information (RSI). The statistical section includes selected financial and demographic information generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 2003 and the U.S. Office of Management and Budget Circular A-133. "Audits of States, Local Governments and Non-Profit Organizations", and the State Treasury Circular OMB 04-04. Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES

The District provides a full range of educational services appropriate to grade levels K through 8. These include regular and special education for handicapped youngsters. The District completed FY 2003/2004 with an enrollment of 950. The following Average Daily Enrollment figures details the changes in student enrollment over the last ten (10) years:

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2003/04	950	2.4%
2002/03	928	10.1%
2001/02	843	8.2%
2000/01	779	4.0%
1999/00	749	0.3%
1998/99	747	2.2%
1997/98	731	4.1%
1996/97	702	1.7%
1995/96	690	(2.3%)
1994/95	706	3.5%

2. ECONOMIC CONDITION AND OUTLOOK

Compared to other Districts, Florham Park remains financially healthy. Although funding is not provided, the local taxpayer is funding a \$13.85 million bond referendum that was approved January 22, 2002 to upgrade facilities. The District is currently carrying a 1.6% unreserved / undesignated fund balance of the net budget to provide emergency funding for the lack of State Aid, to fund emergency projects, and to provide necessary reserves for future contingencies.

3. MAJOR INITIATIVES

The District continues to meet its major challenges, vis-à-vis, a series of ambitious curriculum reviews based on the Long Range Curriculum Plan, which must be completed to maintain educational integrity. The curriculum reviews are in the areas of environmental education, handwriting, reading, speech, intermediate language learning disability and preschool handicapped class. The District has also continued to stress technology. All building computer labs have been updated, staff development has been offered after-school hours and during the summer, and the elementary schools are using wireless laptop carts for instruction.

In addition to technology, in-service training has focused on reading, language and mathematics instruction to address the ESPA and GEPA requirements. District in-service has focused on a diversified curriculum meeting the needs of each child.

4. INTERNAL ACCOUNTING CONTROLS

As a recipient of Federal and State financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by District management and the auditor.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal and State financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. The final budget amount as amended for FY 2003/2004 is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line-item basis. Open encumbrances at year-end are either canceled or are included as re-appropriation of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2004.

6. ACCOUNTING SYSTEM AND REPORTS

The District's accounting records reflect generally accepted accounting principles (GAAP), as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds account groups are explained in "Notes to the Financial Statements," Note #1.

7. DEBT ADMINISTRATION

At June 30, 2004 the District had \$13,660,000 in General Obligation Bonds outstanding. The proceeds of these bonds were used to provide funds for capital improvements to the District's buildings and grounds. These improvements include additions and various renovations in all three (3)-school buildings.

8. CASH MANAGEMENT

The investment policy of the District is guided in large part by State statute as detailed in "Notes to Financial Statements", Note #3. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). "GUDPA" was enacted in 1970 to protect governmental units from loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9. RISK MANAGEMENT

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

10. OTHER INFORMATION

Independent Audit – State statute requires an annual audit by independent certified public accountants or registered municipal accounts. The Board's Finance Committee selected the

accounting firm of Lerch Vinci & Higgins, LLP, CPA's. In addition to meeting the requirements as set forth in State statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984, as amended in 1996, and the related OMB Circular A-133 and State Treasury Circular Letter 04-04.

The Auditor's report on the basic financial statements is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

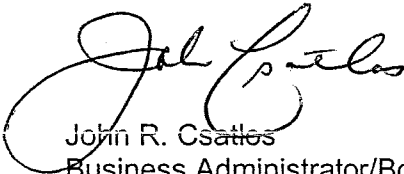

11. ACKNOWLEDGEMENTS

We would like to express our appreciation to the members of the Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the District, as well as contributing their full support to the development and maintenance of our financial operations. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

Honorable President and Members
of the Board of Trustees
Florham Park Board of Education
Florham Park, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Florham Park Board of Education, as of and for the fiscal year ended June 30, 2004, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Florham Park Board of Education as of June 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1, the Florham Park Board of Education has implemented a new reporting model, as required by the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments", as of June 30, 2004.

In accordance with Government Auditing Standards, we have also issued our report dated October 19, 2004 on our consideration of the Florham Park Board of Education's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. This report is an integral part of our audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Florham Park Board of Education's basic financial statements. The accompanying introductory section, combining and individual nonmajor fund financial statements, financial schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. Additionally, the accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations" and New Jersey OMB's Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid", and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules of expenditures of federal awards and state financial assistance have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section, financial schedules and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FLORHAM PARK BOARD OF EDUCATION

Management's Discussion and Analysis Year Ended June 30, 2004

This section of Florham Park Board of Education's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2004. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

The Management's Discussion and Analysis (MD&A) is a new element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between the current year (2003-2004) and the prior year (2002-2003) is required to be presented in the MD&A. However, since this is the first year of implementation of the new reporting model contained in GASB Statement No. 34 and that the Statement permits the omission of prior year data in the year of implementation, the District has elected not to prepare comparative data due to the cost of adjusting prior year's financial statements to the new reporting model.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2003-2004 fiscal year include the following:

- The assets of the Florham Park Board of Education exceeded its liabilities at the close of the fiscal year by \$6,947,987. (Net Assets)
- The District's total net assets increased by \$1,571,375.
- Overall District revenues were \$15,364,666. General revenues accounted for \$11,662,653 or 76% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$3,702,013 or 24% of total revenues.
- The school district had \$13,780,851 in expenses for governmental activities; only \$3,687,978 of these expenses were offset by program specific charges, grants or contributions. General revenues (predominantly property taxes) of \$11,662,653 were adequate to provide for these programs.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$957,824. Of this amount, \$66,888 (7%) is available for spending at the District's discretion (unreserved/undesignated fund balance – General Fund).
- The General Fund fund balance at June 30, 2004 was \$794,790, a decrease of \$117,509 compared to the ending fund balance at June 30, 2003 of \$912,299.
- The General Fund unreserved/undesignated budgetary fund balance at June 30, 2004 was \$206,365, which represents a decrease of \$320,358 compared to the ending fund balance at June 30, 2003 of \$526,723.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes *all* of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – is one way to measure the District's financial health or *position*

FLORHAM PARK BOARD OF EDUCATION

Management's Discussion and Analysis Year Ended June 30, 2004

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements the District's activities are shown in one category:

- *Governmental activities* – Most of the District's basic services are included here, such as regular and special education, transportation, administration, and plant operation and maintenance. Property taxes and Federal and State aid finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds* – focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and bond covenants.
- The District establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (federal and state grants).

The District has three kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explains the relationship (or differences) between them.
- *Proprietary funds* – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements.
 - *Enterprise Funds* – This fund is established to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that costs of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The District currently has one enterprise fund, for its food service (cafeteria) program.

FLORHAM PARK BOARD OF EDUCATION

Management's Discussion and Analysis
Year Ended June 30, 2004

Fund Financial Statements (Continued)

• *Fiduciary funds* – The District is the trustee, or *fiduciary*, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a *combined* fund balance of \$957,824, a decrease from last year's fund balance of \$8,493,395. This decrease was attributable to the utilization of capital projects fund balance for the District Facility Improvements.

Revenues for the District's governmental funds were \$15,350,631, while total expenses were \$23,010,784. In addition, the District had other financing sources of \$124,582.

GENERAL FUND

The General fund includes the primary operations of the District in providing educational services to students from Kindergarten through Grade 8.

The following schedule presents a summary of General Fund Revenues.

GENERAL FUND (Continued)

In 2003-2004 General Fund revenues and other financing sources were less than expenditures and other financing uses by \$117,509. Therefore, total fund balance decreased to \$794,790 at June 30, 2004 due to an unfavorable variance in unexpended budget appropriations for the year. After deducting statutory reserves and designations, the unreserved undesignated fund balance decreased from \$494,239 at June 30, 2003 to \$66,888 at June 30, 2004. This decrease can be attributable to the State Department of Education's restriction on maximum unreserved/undesignated fund balance to be no greater than 3% of expenditures compared to 6% in the previous year.

CAPITAL ASSET AND DEBT ADMINISTRATION

At the end of fiscal year 2004, the District had \$20,230,854 invested in land, buildings, furniture, equipment and vehicles. The following are the June 30, 2004 balances.

Management's Discussion and Analysis Year Ended June 30, 2004

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into two categories"

- Implementing budgets for specially funded projects, which include both federal and state grants, reinstating prior year purchase orders being carried over, and budgeting for clearing, resale, and gifts.
- Increases in appropriations for significant unbudgeted costs.

Revisions in the budget were made through budget transfer and to appropriate additional fund balance to prevent over expenditures in specific line item accounts. There were no other revisions to the budget during the year other than the reappropriation of prior year encumbrances. Several of these revisions bear notation:

- \$40,000 of additional fund balance appropriated for legal services due to unanticipated litigation.
- \$10,000 of additional fund balance appropriated for instructional services related to computer/technology wiring.
- \$45,000 of additional fund balance appropriated for construction services at Ridgedale Middle School for an emergent roofing project.

FACTORS BEARING ON THE DISTRICT'S FUTURE

While many factors influence the district's future, the availability of funding for special education needs and the economy will have the most impact on educational and fiscal decisions in the future.

Many factors were considered by the District's administration during the process of developing the fiscal year 2004-2005 budget. The primary factors were the District's projected student population, anticipated state and federal aid as well as increasing salary and related benefit costs.

These indicators were considered when adopting the budget for fiscal year 2004-2005. Budgeted expenditures in the General Fund increased 5 percent to \$12,609,713 in fiscal year 2004-2005. Increases in contractual payroll and employee benefit costs are the primary reasons for the increase.

WITH THE DISTRICT-WIDE STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2004**

Total net change in fund balances - governmental funds (Exhibit B-2) \$ (7,535,571)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement and allocated over their estimated useful lives as annual depreciation expense. This is the amount by which depreciation exceeds capital outlays in the current period.

Capital Outlay	\$ 9,304,105	
Amount Representing Capital Lease Principal	<u>(18,679)</u>	
	9,285,426	
Depreciation Expense	<u>(564,216)</u>	
		8,721,210

In the statement of activities, certain operating expenses - compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid):

Compensated Absences		55,381
----------------------	--	--------

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net assets and does not affect the statement of activities.

Serial Bonds	350,000	
Capital Leases	<u>116,100</u>	
		466,100

The issuance of long-term debt provides current financial resources to governmental funds, but it increases long-term liabilities in the statement of net assets and does not affect the statement of activities.

Capital Lease Proceeds		(107,045)
------------------------	--	-----------

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Increase in Accrued Interest		<u>(30,295)</u>

NOTES TO FINANCIAL STATEMENTS

FLORHAM PARK BOARD OF EDUCATION
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2004

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Florham Park Board of Education (the "Board" or the "District") is an instrumentality of the State of New Jersey, established to function as an education institution. The Board consists of seven elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. Under existing statutes, the Board's duties and powers include, but are not limited to, the development and adoption of a school program; the establishment, organization and operation of schools; and the acquisition, maintenance and disposition of school property.

The Board also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the Florham Park Board of Education this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

During the 2003/04 school year, the District implemented a new financial reporting model, as required by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis – for State and Local Governments.

B. District-Wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the Board of Education. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or other governmental entities, including other school districts, who purchase, use, or directly benefit from goods or services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted state aid and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The District considers all of its governmental funds to be major funds.

FOR THE FISCAL YEAR ENDED JUNE 30, 2004

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The district-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. All assets and all liabilities associated with these operations (with the exception of the fiduciary funds) are included on the Statement of Net Assets. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when susceptible to accrual (i.e. when they are both measurable and available). Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when a liability is incurred, as under accrual basis of accounting, with the exception of debt service expenditures as well as expenditures related to compensated absences and claims and judgments which are recorded only when payment is due.

Property taxes, tuition, unrestricted state aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *special revenue fund* accounts for the proceeds of revenue sources legally restricted to expenditures for specified purposes. This fund accounts for federal and state financial programs, with the exception of grants for major capital projects and the school milk program.

The *capital projects fund* accounts for the proceeds from the sale of bonds and other revenues used for the acquisition or construction of major capital facilities.

The *debt service fund* accounts for the accumulation of resources for and the payment of principal and interest on long-term general obligation debt of governmental funds.

The District reports the following non-major proprietary fund which is organized to be self-supporting through user charges:

The *food service fund* accounts for the activities of the school cafeteria, which provides milk to students.

Additionally, the government reports the following fund types:

The *fiduciary trust fund* is used to account for resources legally held in trust for the state unemployment insurance fund and for private donations for scholarships. All resources of the fund, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of these resources be preserved as capital.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Private-sector standards of accounting and financial reporting issued by the Financial Accounting Standards Board (FASB) prior to December 1, 1989, generally are followed in both the district-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Board has elected not to follow FASB guidance issued subsequent to December 1, 1989.

As a general rule the effect of interfund activity has been eliminated from the district-wide financial statements. Exceptions to this general rule are charges between the Board's proprietary and fiduciary funds since elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes, unrestricted state aid, investment earnings and miscellaneous revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund is charges to customers for sales and services. Operating expenses for enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal subsidies for the food service operation are considered nonoperating revenues.

D. Assets, Liabilities and Net Assets or Equity

Deposits and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value and are limited by N.J.S.A. 18A:20-37.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the district-wide financial statements as "internal balances".

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

D. Assets, Liabilities and Net Assets or Equity (Continued)

Receivables and Payables (Continued)

Tuition Expenditures - Tuition charges for the fiscal years 2002-03 and 2003-04 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been certified by the State Department of Education.

Property taxes are levied pursuant to law and are collected by the municipality and are transferred to the District as requested. Property tax revenue is recognized in the year they are levied and become available. Property taxes collected in advance of the year-end for which they are levied and transferred to the District are reported as deferred revenues. The tax bills are mailed by the municipal tax collector and are due in four quarterly installments on February 1, May 1, August 1 and November 1. When unpaid, taxes or any other municipal lien, or part thereof, on real property, remains in arrears on April 1st in the year following the calendar year levy when the same became in arrears, the tax collector of the municipality shall, subject to the provisions of New Jersey Statute, enforce the lien by placing the property on a tax sale. The Borough can institute annual "in rem" tax foreclosure proceedings to enforce the tax collection or acquisition of title to the property.

Inventories

The cost of inventories of the governmental fund types are recorded as expenditures at the time individual inventory items are purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

Certain assets are classified as restricted on the balance sheet because they are maintained in separate bank accounts and their use is limited by state regulations for capital projects.

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost if purchased or estimated historical cost if constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity (Continued)

Capital Assets (Continued)

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land Improvements	10-20
Buildings	40
Building Improvements	20
Machinery and Equipment	5-20

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused sick leave benefits. A long-term liability of accumulated sick leave has been recorded in the governmental activities in the district-wide financial statements, representing the Board's commitment to fund such costs from future operations. Proprietary Funds accrue sick leave in the period that they are earned. A liability is reported in the governmental funds only to the amount actually due at year end as a result of employee resignations and retirements.

Long-term obligations

In the district-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

Fund Equity

Reservations of fund balances of governmental funds are created to either (1) satisfy legal covenants that require a portion of the fund balance to be segregated or (2) identify the portion of the fund balance that is appropriated for future expenditures.

Reserved for Encumbrances - This reserve was created to represent encumbrances outstanding at the end of the year based on purchase orders and contracts awarded for which the goods or services have not yet been received at June 30.

Reserved for Capital Reserve Account - This reserve was created by budget appropriation to fund future capital expenditures (See Note 2)

Reserved - Legally Restricted - Designated for Subsequent Year's Expenditures - This reserve was created to represent the 2002/03 Extraordinary Aid designated for tax relief in 2004/05.

Designations of fund balance represent tentative management plans that are subject to change.

Designated for Subsequent Year's Expenditures - This designation was created to dedicate the portion of fund balance utilized in the adopted subsequent year's budget.

Comparative Data/Reclassifications

Since this is the first year of implementation of the new reporting model contained in the GASB Statement No. 34, comparative data have not been presented for any individual funds in the fund financial statements. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

In accordance with the requirements of the New Jersey Department of Education, the District annually prepares its operating budget for the forthcoming year. The budget, except for the special revenue fund, which is more fully explained in the required supplementary information, is prepared in accordance with accounting principles generally accepted in the United States of America and serves as a formal plan for expenditures and the proposed means for financing them. Capital lease transactions are accounted for on the GAAP basis.

The annual budget is adopted in the spring of the preceding year for the general, special revenue and debt service funds. The budget is submitted to the county superintendent and is voted upon at the annual school election on the third Tuesday in April. Budget adoptions and amendments are recorded in the District's board minutes. The budget is amended by the Board of Trustees as needed throughout the year. The budget for revenues, other resources, other uses, and fund balances is prepared by fund source and amount. The budget for expenditures is prepared by fund, program, function, object and amount. The legal level of budgetary control is established at the line item account within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. The Board approved several budget transfers during 2003/2004. During 2003/2004 the Board increased the original budget by \$150,745. The increase was funded by additional surplus appropriated, grant awards, and the reappropriation of prior year encumbrances.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America, with the exception of the legally mandated revenue recognition of certain state aid payments for budgetary purposes only and the special revenue fund as described in the Notes to Required Supplementary Information (RSI). Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Encumbrance accounting is employed in the governmental funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

 NOTES TO FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 2004**

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

Capital Reserve Account

A capital reserve account was established on October 16, 2000. The accumulation of funds will be used for capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Post-April 2004 transfers must be in compliance with P.L. 2004, C.73 (S1701). Pursuant to N.J.A.C. 6:23A-5.1(d)7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

During the fiscal year ended June 30, 2004, the District had actual interest earnings of \$13 and transferred by Board resolution \$113,496 into the capital reserve account.

NOTE 3 DETAILED NOTES ON ALL FUNDS

Deposits and Investments

Deposits

The Board's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC) or New Jersey's Governmental Unit Deposit Protection Act. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to maintain additional collateral in the amount of 5% of the average public deposits and to deposit these amounts with the Federal Reserve Bank for all deposits not covered by the FDIC.

Bank balances are insured up to \$100,000 in the aggregate by the FDIC for each bank. At June 30, 2004, the book value of the Board's deposits was \$1,447,255 and bank balances of the Board's cash and deposits amounted to \$1,910,377. Of the bank balances \$100,000 was covered by FDIC, \$1,354,434 was covered by the New Jersey Governmental Unit Deposit Protection Act, and \$455,942 are uninsured with the New Jersey Cash Management Fund. The Board's deposits which are displayed on the balance sheet as "cash and cash equivalents" are categorized as:

<u>Depository Account</u>	<u>Bank Balance</u>
Insured	\$1,454,435
Collateralized	
Collateral Held by Pledging Bank's Trust Department

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Board does not have a policy for custodial credit risk. As of June 30, 2004, the Board's bank balance of \$455,942 was exposed to custodial credit risk as follows:

Uninsured and Collateralized Held by Pledging Bank's Trust Department, not in the Board's Name	<u>\$455,942</u>
---	------------------

Investments

The Board is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 18A:20-37. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America, Government Money Market Mutual Funds, bonds or other obligations of the school district or bonds or other obligations of the local unit or units within which the school district is located, Local Government investment pools, and agreements or the repurchase of fully collateralized securities, if transacted in accordance with the above statute.

As of June 30, 2004, the Board had no outstanding investments.

Receivables

Receivables as of year-end for the government's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Special Revenue</u>	<u>Capital Projects</u>	<u>Food Service</u>	<u>Total</u>
Receivables:					
Accounts	\$ 32,346				\$ 32,346

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

Special Revenue Fund	
Unencumbered grant draw downs	\$ 58,769
Capital Projects Fund	
Economic Development Authority School Facility Grants	<u>58,391</u>
Total Deferred Revenue for Governmental Funds	<u>\$117,160</u>

NOTE 4 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to general liability, automobile coverage, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; termination of employees and natural disasters. The Board has obtained insurance coverage to guard against these events to minimize the exposure to the District should they occur.

There has been no significant reduction in insurance coverage from the previous year nor have there been any settlements in excess of insurance coverage's in any of the prior three years.

A. Risk Management (Continued)

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary fund for the current and previous two years:

<u>Fiscal Year</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2003-2004	\$ 3,783	\$ 19,568	\$ 21,760
2002-2003	1,222	24,617	37,304
2001-2002	133	15,944	60,184

B. Contingent Liabilities

The District is a party defendant in some lawsuits, none of a kind unusual for a school district of its size and scope of operation. In the opinion of the Board's Attorney the potential claims against the District not covered by insurance policies would not materially affect the financial condition of the District.

The Board participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Board may be required to reimburse the grantor government. As of June 30, 2004, significant amounts of grant expenditures have not been audited by the various grantor agencies but the Board believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

C. Employee Retirement Systems and Pension Plans

Plan Descriptions

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund retirement system is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statutes, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees Retirement System is considered a cost-sharing multiple-employer plan.

C. Employee Retirement Systems and Pension Plans (Continued)

Plan Descriptions (Continued)

Teachers' Pension and Annuity Fund

The Teachers' Pension and Annuity Fund was established as of January 1, 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State.

The Fund's designated purpose is to provide retirement benefits, death, disability and medical benefits to certain qualified members. Membership in the Fund is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified. The Fund's Board of Trustees is primarily responsible for the administration of the Fund.

According to the State of New Jersey Administrative Code, all obligations of the Fund will be assumed by the State of New Jersey should the Fund terminate.

Public Employees' Retirement System

The Public Employees Retirement System (PERS) was established January 1, 1955, under the provisions of N.J.S.A. 43:15A. The System's designated purpose is to provide retirement, death, disability and medical benefits to certain qualified members. Membership in the System is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or local jurisdiction's pension fund. The System's Board of Trustees is primarily responsible for the administration of the System.

According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate.

Vesting and Benefit Provisions

Teachers' Pension and Annuity Fund

The vesting and benefit provisions are set by N.J.S.A. 18A:66. The Fund provides retirement, death and disability benefits, as well as medical benefits for certain qualified members. All benefits vest after eight to ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the Fund. Retirement benefits for age and service are available at age 60 and, under recently enacted legislation referred to below, are generally determined to be 1/55 of final average salary for each year of service credit (as defined). Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years service credit, as defined, or they may elect deferred retirement after achieving eight to ten years of service credit, in which case benefits would begin the first day of the month after the member attains normal retirement age.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Teachers' Pension and Annuity Fund (Continued)

Eligible retirees receiving monthly benefits are entitled to cost-of-living increases equal to 60% of the change in the average consumer price index for the calendar year in which the pensioner retired as compared to the average consumer price index for a 12-month period ending with each August 31st immediately preceding the year in which the adjustment becomes payable. The regular retirement allowance is multiplied by the 60% factor as developed and results in a dollar amount of the adjustment payable. Retired members become eligible for pension adjustment benefits (COLA) after 24 months of retirement.

Public Employees Retirement System

The vesting and benefit provisions are set by statute (N.J.S.A. 43:15A and 43:3B). The System provides retirement, death and disability benefits, as well as medical benefits for certain qualified members. All benefits vest after eight to ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the system. Retirement benefits for age and service are available at the age of 60 and are generally determined to be 1/55 of final average salary for each year of service credit (as defined). Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% per annum of related interest earned on their contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Eligible retirees receiving monthly benefits are entitled to cost-of-living increases equal to 60% of the change in the average consumer price index for the calendar year in which the pensioner retired as compared to the average consumer price index for a 12-month period ending with each August 31st immediately preceding the year in which the adjustment becomes payable. The regular retirement allowance is multiplied by the 60% factor as developed and results in a dollar amount of the adjustment payable. Retired members become eligible for pension adjustment benefits after 24 months of retirement.

Contributions

Teachers' Pension and Annuity Fund

The contribution policy is set by N.J.S.A. 18A:66 requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Members' contribution at a uniform rate. In accordance with legislation passed in 2001 (Chapter 133, P.L. 2001), the employee contribution rate was lowered to 3% effective January 1, 2002. Prior to this date, employees had been contributing at a rate of 4.5%. The rate will remain at 3% for as long as surplus assets are available in the Fund. Employers are required to contribute at an actuarially determined rate. The annual employer contribution includes funding for basic retirement allowances, cost-of-living adjustments and noncontributory death benefits.

C. Employee Retirement Systems and Pension Plans (Continued)

Contributions (Continued)

Teachers' Pension and Annuity Fund (Continued)

The State and local employers were not required to make a normal contribution to the System in 2003 and 2002. The normal contribution for basic pension benefits, noncontributory death benefits, and cost-of-living adjustments was funded by actuarially determined excess valuation assets in accordance with Chapter 115, P.L. 1997. This legislation provides for actuarially determined excess valuation assets to offset required normal contributions to the State of New Jersey and the local participating employers. Through FY 2003, excess valuation assets may be used to the extent possible to offset normal contributions. Thereafter, a certain percentage of available excess valuation assets may be used as specified in the legislation.

During the year ended June 30, 2004, the State of New Jersey contributed \$404,690 to the TPAF for normal cost pension contribution or post-retirement medical benefits on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$405,383 during the year ended June 30, 2004 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts have been included in the district-wide financial statements and the fund financial statements as a revenue and expenditure in accordance with GASB No. 24.

Public Employees' Retirement System

The contribution policy is set by statute and requires contributions from active members and contributing employers. Plan members and employer contribution rates may be amended by State of New Jersey legislation. Members contribute at a uniform rate of base pay. The full normal employee contribution rate is 5%; however, as a result of legislation (Ch. 415, P.L. 1999), the employee rate was reduced to 3% of base salary effective January 1, 2000. The legislation provides that the rate will remain 3% as long as actuarially determined excess valuation assets are available in the fund. The annual employer contribution is based upon an actuarially determined rate. Such contributions include funding for basic retirement allowances, cost-of-living adjustments and noncontributing death benefits. Local employers were not required to make a normal contribution in 2002, 2001 and 2000. The normal contribution was funded by excess valuation assets as permitted by Ch. 115, P.L. 1997. Ch. 108, P.L. 2003 provides that the State Treasurer will require the local employer PERS normal and accrued liability contributions to be a percentage of the amount certified annually by PERS as follows: 20% for payments due in State fiscal year 2005; 40% for payments due in State fiscal year 2006; not more than 60% for payments due in State fiscal year 2007; and not more than 80% for payments due in State fiscal year 2008.

D. Post Retirement Benefits

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2003 there were 61,549 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums is on a pay-as-you-go basis. Beginning in fiscal year 1994 with an additional contribution beginning in fiscal year 1996 to maintain a medical reserve of one half of one percent of the active State payroll.

NOTE 4 OTHER INFORMATION (Continued)

D. Post Retirement Benefits (Continued)

In accordance with P.L. 2002, c.11 which allowed the State to use available reserves in the post-retirement medical reserve funds to cover required pay-as-you-go medical premiums, the State did not make a contribution to the PERS and TPAF in fiscal year 2003 toward the cost of post-retirement medical benefits. The legislation also suspended in fiscal years 2002 and 2003 the additional post retirement medical contribution to increase the fund balance by one half of one percent of active member salaries for the valuation period. State law provides that post retirement medical contributions resume in fiscal year 2004 and will be computed to provide an increase in the reserve fund of three fifths of one percent of active member salaries for the valuation period.

The State is also responsible for the cost attributable to Ch. 126, P.L. 1992, which provides for health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$57.9 million toward Chapter 126 benefits for 8,362 eligible retired members in fiscal year 2003.

Financial Statements

The TPAF and PERS are included along with other state-administered, pension trust and agency funds in the basic financial statements of the State of New Jersey.

Complete financial statements of the TPAF and PERS may be obtained from the State of New Jersey, Department of Treasury, Division of Pensions, P.O. Box 295, Trenton, NJ 08625.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL
REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable President and Members
of the Board of Trustees
Florham Park Board of Education
Florham Park, New Jersey

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Florham Park Board of Education as of and for the fiscal year ended June 30, 2004, which collectively comprise the Florham Park Board of Education's basic financial statements and have issued our report thereon dated October 19, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Compliance

As part of obtaining reasonable assurance about whether the Florham Park Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under Government Auditing Standards and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey which is described in the accompanying schedule of findings and questioned costs as item 2004-1.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Florham Park Board of Education's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgement, could adversely affect Florham Park Board of Education's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. A reportable condition is described in the accompanying schedule of findings and questioned costs as item 2004-1.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition identified above is a material weakness.

This report is intended solely for the information and use of the Board of Trustees, school administration, the New Jersey State Department of Education and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04**

Honorable President and Members
of the Board of Trustees
Florham Park Board of Education
Florham Park, New Jersey

Compliance

We have audited the compliance of the Florham Park Board of Education with the types of compliance requirements described in the "U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement" and the "New Jersey State Grant Compliance Supplement" that are applicable to each of its major state programs for the fiscal year ended June 30, 2004. Florham Park Board of Education's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirement of laws, regulations, contracts and grants applicable to each of its major state programs is the responsibility of the Florham Park Board of Education's management. Our responsibility is to express an opinion on Florham Park Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations" and New Jersey OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid". Those standards and circulars require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Florham Park Board of Education's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Florham Park Board of Education's compliance with those requirements.

In our opinion, Florham Park Board of Education complied, in all material respects, with the requirements referred to above that are applicable to each of its major state programs for the fiscal year ended June 30, 2004. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04 and which are described in the accompanying schedule of findings and questioned costs as items 2004-2 and 2004-3.

Internal Control Over Compliance

The management of Florham Park Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered Florham Park Board of Education's internal control over compliance with requirements that could have a direct and material effect on a major state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04.

We noted certain matters involving the internal control over compliance and its operations that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgement, could adversely affect Florham Park Board of Education's ability to administer a major state program in accordance with applicable requirements of laws, regulations, contracts and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 2004-2 and 2004-3.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal or state program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions identified above is a material weakness.

This report is intended solely for the information and use of the Board of Trustees, school administration, the New Jersey State Department of Education and other state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

FLORHAM PARK BOARD OF EDUCATION
NOTES TO THE SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE FISCAL YEAR ENDED JUNE 30, 2004

NOTE 1 GENERAL

The accompanying schedules present the activity of all federal and state financial assistance programs of the Florham Park Board of Education. The Board of Education is defined in Note 1(A) to the Board's basic financial statements. All federal financial assistance received directly from federal agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1(C) to the Board's basic financial statements.

NOTE 3 RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on a modified accrual basis with the exception of the revenue recognition of certain state aid payments in the current budget year, which is mandated pursuant to P.L. 2003 c.97.(A3521). For GAAP purposes, these payments are not recognized until the subsequent year due to the state deferral and recording of these state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, which may include the deferred state aid payment, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$106,993 for the general fund and \$1,743 for the special revenue fund. See *the Notes to Required Supplementary Information* for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund		\$ 1,645,816	\$ 1,645,816
Special Revenue Fund	\$ 173,232	77,403	250,635
Capital Projects Fund		1,802,012	1,802,012

NOTE 4 RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules may not necessarily agree with the amounts reported in the related federal and state financial reports due to timing differences between the District's fiscal year and grant program years.

NOTE 5 OTHER

Revenues and expenditures reported under the U.S.D.A. Commodities Program represent current year value received and current year distributions, respectively. TPAF Social Security contributions represent the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2004. The amount reported as TPAF Pension Contributions represent the amount paid by the State on behalf of the District for the year ended June 30, 2004.

Part 2 – Schedule of Financial Statement Findings

This section identifies the reportable conditions, material weaknesses, and instances of noncompliance related to the basic financial statements that are required to be reported in accordance with Chapter 5.18 of *Government Auditing Standards*.

Finding 2004-1

Certain purchase orders classified as encumbrances at year end were deemed to be accounts payable in the Capital Projects Fund.

Criteria or specific requirement

The State Department of Education's GAAP Technical Systems Manual.

Condition

Certain open purchase orders were not properly classified in the District's records at June 30, 2004 as accounts payable.

Questioned Costs

None. Financial statements have been adjusted.

Context

\$352,983 of encumbrances in the Capital Projects Fund were reclassified to accounts payable.

Effect

Understatement of accounts payable in the Capital Projects Fund understates expenditures and overstates fund balance. In addition, capital assets are also understated.

Recommendation

Internal control procedures be reviewed and revised to ensure open purchase orders are properly classified as accounts payable.

Part 3 – Schedule of Federal and State Award Findings and Questioned Costs

This section identifies the reportable conditions, material weaknesses, and instances of noncompliance including questioned costs, related to the audit of major federal and state programs, as required by OMB Circular A-133 and New Jersey OMB's Circular 04-04.

CURRENT YEAR STATE AWARDS

Finding 2004-2

Expenditures for certain purchases were in excess of the bid threshold for which no public advertising for bids were sought.

State program information:

Special Education Aid 04-495-034-5120-011

Criteria or specific requirement:

N.J.S.A. 18A:18A-4, Contracts and Agreements Requiring Advertisement

Condition:

The District purchased computer equipment, automotive repair services and furniture during the year where no evidence of public bidding or state contract existed.

Questioned Costs:

Undeterminable.

Context:

The aggregate purchases for computer equipment, automotive repair services and furniture exceeded the bid threshold of \$17,500 during the school year.

Effect:

The District may not be in compliance with the Public School Contracts Law.

Recommendation:

The Board Attorney's opinion be sought before a commitment is made for expenditures that might result in non-compliance of the Public School Contracts Law.

Part 3 – Schedule of Federal and State Award Findings and Questioned Costs (Cont'd)

This section identifies the reportable conditions, material weaknesses, and instances of noncompliance, including questioned costs, related to the audit of major state programs, as required by OMB Circular A-133 and New Jersey OMB's Circular 04-04.

CURRENT YEAR STATE AWARDS

Finding 2004-3

Exceptions were noted for on-roll related services reported on the District's workpapers supporting the Application for State School Aid (ASSA) and related services reported in the students' IEP's.

State program information:

Special Education Aid

04-495-034-5120-011

Criteria or specific requirement:

N.J. Department of Education – Specific grant compliance

Condition:

- Related services reported on District workpapers were not included in the students' IEP's.

Questioned Costs:

Unknown.

Context:

26% of the related services tested per the District workpapers were not reported in the student's IEP.

Effect:

State aid is based on ASSA information which may not agree to supporting documents.

Recommendation:

Greater care be exercised in the reporting of related services to ensure services reported on the District workpapers are reported in the student's IEP.

**FLORHAM PARK BOARD OF EDUCATION
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS
FOR THE FISCAL YEAR ENDED JUNE 30, 2004**
