RE: Quarantine Guidelines

Dear **Florham Park Parents/Guardians and Staff**,

Please find below information and reminders pertaining to quarantine guidelines relating to vaccinated and unvaccinated individuals, those considered to be Close Contacts and international travel procedures. Should you have any questions, please do not hesitate to contact your school nurse or principal.

Vaccinated Individuals

◦ Staff and students who are exposed to COVID-positive individuals and are fully vaccinated with no COVID-like symptoms do not need to quarantine, but should continue to monitor for symptoms 14 days following the exposure. If your child is fully vaccinated, please provide a copy to the nurse to assist with contact tracing effort.

Close Contact - COVID-19 Activity Level

◦ Currently, the Northwest region of NJ (Morris County) continues to be in the moderate (yellow) activity level. In the moderate level, unvaccinated close contacts are required to quarantine for 10 days, or 7 days with negative test results collected at 5-7 days. At this time, the Florham Park Health Department has advised the District that a COVID-19 negative PCR test result must be provided for this instance. The link to view the weekly NJDOH CALI report is at - [NJDOH CALI Report link](#). As previously communicated, please note that if the Northwest region shifts to a high (orange) level, exposed close contacts will be excluded from school for 14 days.

International Travel

- *Unvaccinated Students* - As per the Florham Park Local Health Department, following [CDC guidance on international travel](#), all unvaccinated students that travel internationally must quarantine following the *Close Contact* guidelines outlined above. Please contact your school principal to plan for virtual instruction upon return.
- *Vaccinated Students* - Testing is recommended for the vaccinated by viral test 3-5 days after international travel and to monitor for symptoms for 7 days.

The district will continue to communicate updates and changes from the State and/or from our local health department. We truly appreciate your understanding and cooperation during this time.

Sincerely,

Steven Caponegro

Dr. Steven Caponegro
